Physical Therapist

Education

Grand Valley State University
Masters of Science Degree
Physical Therapy

Bachelors of Science Degree
Health Science

Specialty Interests

Vestibular & Balance Rehab
Manual Therapy
Neurological Rehabilitation

Personal Interests

I love spending time with my husband and children. We enjoy walking the boardwalk and outdoor activities. I love snow skiing and water skiing but my absolute favorite past time is scrapbooking!

Thought To Live By

Remain optimistic at all times. While working with a recent patient, we found a specific balance impairment. He stated that he would rather view it as an opportunity for improvement rather than an impairment. I love this view and always try to surround myself with optimistic people such as this patient.
